## FINE LADDIES HAVE FIRST SOCIAL AFFAIR

The firemen of the Mishawaka Woolen Co. gave their first entertainment at the headquarters of the department. The social affair consisted of dancing, card playing and various contests, after which a splendid luncheon was served. About 35 couples were present. Every facility of service has its own department, and there is considerable rivalry between the members of the different companies.

The Mishawaka Woolen Co. has as good a department as any has gotten together for a private concern. The laddies have made arrangements for another social to be held about Jan. 24.

**THEME IS INTERESTING.**  
The services at the First church of the Evangelical association were well attended Sunday at both the morning and evening services. At the morning service the pastor, Rev. D. D. Spangler, preached a sermon which was very interesting. His theme was "Christ in the Heart." The pastor spoke that if we have Christ in the heart we will manifest it in our business, in our conversation, in our relations of our children, and in our attendance at all services of the church. He repeated that if we have Christ in our hearts we will be active consistent Christians striving always to advance God's kingdom on earth.

**INTERESTING SERMON.**  
One of the most interesting sermons ever delivered at the First Christian church was heard Sunday evening, the subject being, "The Invisible Church Made Visible." The pastor dwelt especially on the bringing together of the two classes, the visible and invisible persons, that all may receive the power to combat with all things not in keeping with the church.

In the morning the pastor used as his subject "The New Testament Conception of Liberty." He spoke of the teachings of St. Paul to the Jews, when he told them that to be a worthy Christian one should give one-third of his all. He also referred to some persons that were liberal givers, but not consistent, that some people gave for worldly rewards and others for the reward that comes only from God.

Rev. VanWinkle is a very forceful speaker, and the congregation that heard the two sermons Sunday will have many things to consider during the week. After the services of the evening the pastor was followed on the pulpit by C. Boone, a colored educator from the Moxabee institute at Miss, who spoke of the good that was being done for members of his race. It was very interesting. The congregation gave him a good collection taken at the services.

**MISHAWAKA PERSONALS.**

**TWO STRONG BILLS.**  
Two powerful and sensational plays will be shown at the Princess theater this week on Wednesday and Thursday. On Wednesday the play "The Mystery of the Blue Stone" will be shown, this picture showing a poor country boy, who becomes an artist, but falls among evil companions, and is rescued at the proper time.

On Thursday they offer the "Mysteries of Paris," which play depicts love, passion, crime and adventure, and makes a wonderful drama of intense interest. Owing to the great expense incurred in securing these shows the admission will be 10 cents for adults.

**To Get Rid of Wrinkles and Bad Complexions**  
(From Beauty's Mirror.)  
It is more important now than during the period of profuse perspiration, to keep the pores clean. All cosmetics clog the pores. In winter this is especially true, with elimination of waste material, injuring instead of adding the complexion. Ordinary cosmetics, such as powders, and pomades, clog the pores. It actually peels off an offensive skin, at the same time clogging the pores. Minute particles of waste skin come off day by day, causing the healthy, younger skin beneath to appear out of place. Gradually the healthy skin becomes covered with a thin, dry, scaly film. This is the period of profuse perspiration, to keep the pores clean. All cosmetics clog the pores.
